Subject: Air Quality Complaint Form

----- Air Quality Department Complaint Form -----

Reference Number: 2015120147731332

Business Name: Hickman's Egg Ranch Arlington Complex

Violation Address: salome Road and Ward Road

Major East/West: Salome Road

Major North/South: Ward Road

On the: SW Corner

City: ARLINGTON

Violation Description: At approximately 1pm today I observed huge plumes of manure dust rising hundreds of feet into the air from Hickman's Arlington plant. There is also a vomit smell in the air due to the release of Butyric Acid from the manure. Butyric Acid is a hazardous material and can cause lung damage. This is a violation of Hickman's air quality permit which clearly states that gaseous emissions of volatile organics and manure dust must be contained to his property. I will need a complaint number for my records.

Date: 12/1/2015 Time: 1:00
